

ABSTRAK

Istafaara. 2024. *Pengaruh Pembelajaran Playing Card Terhadap Peningkatan Pemahaman siswa Pada Mata Pelajaran Al Qur'an Hadist Materi Tajwid Siswa Kelas VII MTs Nurul Islam Gresik*. Skripsi, Program Studi Pendidikan Agama Islam, Fakultas Tarbiyah, Universitas Kiai Abdullah Faqih Gresik. Pembimbing: Dr. Muhammad Arif Syihabuddin, M.Pd. I

Kata Kunci: Media Playing card, Peningkatan pemahaman, Mata Pelajaran al-Qur'an Hadis

Pelajaran Al-Qur'an Hadits dianggap pembelajaran yang membosankan, karena sebagian siswa masih ada yang belum lancar membaca Al-Qur'an, dan hal ini tentu menyulitkan mereka dalam mengartikan, menghafal, dan memahaminya. Tujuan penelitian ini untuk mengetahui pengaruh penggunaan media pembelajaran playing card terhadap peningkatan pemahaman siswa kelas VII pada mata pelajaran Al Qur'an Hadist materi tajwid MTs Nurul Islam Gresik.

Jenis penelitian ini adalah kuantitatif menggunakan metode pre eksperimental dengan rancangan one-group pre-test post-test design. Populasi dalam penelitian ini seluruh siswa kelas VII MTs Nurul Islam Gresik berjumlah 108, kemudian peneliti mengambil seluruh siswa kelas VII-A yang berjumlah 28 siswa untuk dijadikan sampel. Teknik pengumpulan data melalui tes dan dokumentasi, Uji prasyarat analisis meliputi uji normalitas dan uji homogenitas. Uji hipotesis meliputi uji T (T-test) dan uji determinasi.

Berdasarkan hasil penelitian dapat disimpulkan terdapat pengaruh yang signifikan penggunaan media pembelajaran playing card terhadap peningkatan pemahaman siswa kelas VII pada mata pelajaran Al Qur'an Hadist materi tajwid MTs Nurul Islam Gresik Dengan nilai thitung lebih besar dari ttabel baik pada $tt.ts.5\% = 2,05$ dan $tt.ts.1\% = 2,77$. Maka dapat diketahui bahwa t_o lebih besar dari pada t_t yaitu: $2,05 < 11,95 > 2,77$. Dan besaran sebelum dan sesudah penggunaan media pembelajaran playing card terhadap peningkatan pemahaman siswa kelas VII pada mata pelajaran Al Qur'an Hadist materi tajwid MTs Nurul Islam Gresik diketahui skor rata-rata pre-test 91.72414 dan hasil post-test menunjukkan rata-rata 141.3793 dan Koefisien Determinannya adalah 142.80%.

ABSTRACT

Istafaara. 2024. *The Effect of Learning Playing Cards on Increasing Understanding student of the Qur'an Hadith Subject, Tajwid Material for Class VII Students at MTs Nurul Islam Gresik. Thesis, Islamic Religious Education Study Program, Tarbiyah Faculty, Kiai Abdullah Faqih University Gresik. Supervisor: Dr. Muhammad Arif Syihabuddin, M.Pd. I*

Keywords: Playing card media, increasing understanding, Al-Qur'an Hadith subjects

Studying Al-Qur'an Hadith is considered boring learning and is considered a burden by students, because some students are still not fluent in reading the Al-Qur'an, and this certainly makes it difficult for them to interpret, memorize and understand it. The purpose of this research is to determine the effect of using playing card learning media on increasing class VII students' understanding of the Al Qur'an Hadith subject, recitation material at MTs Nurul Islam Gresik.

This type of research is quantitative using a pre-experimental method with a one-group pre-test post-test design. The population in this study was all 108 class VII students at MTs Nurul Islam Gresik, then the researcher took all 28 class VII-A students to be used as samples. Data collection techniques through tests and documentation. Analysis prerequisite tests include normality tests and homogeneity tests. Hypothesis testing includes T test and determination tests.

Based on the research results, it can be concluded that there is a significant influence of the use of playing card learning media on increasing the understanding of class VII students in the subject of Al Qur'an Hadith recitation material at MTs Nurul Islam Gresik. With a tcount value greater than ttable both at $tt.ts.5\% = 2.05$ and $tt.ts.1\% = 2.77$. So it can be seen that t is greater than t , namely: $2.05 < 11.95 > 2.77$. And the magnitude before and after the use of playing card learning media towards increasing the understanding of class VII students in the subject Al Qur'an Hadith recitation material at MTs Nurul Islam Gresik is known to have an average pre-test score of 91.72414 and the post-test results show an average of 141.3793 and The coefficient of determination is 142.80%.
